Computing for the way you live today

GIGTEK MCE

Media computing for your living room or home cinema

A Media Center PC from GIGTEK provides a one-stop solution for all your media and computing requirements in one living room friendly package. No more ugly beige boxes, no more fans noisier than helicopters, no more being exiled to a bedroom to use the PC. Design and functionality come together in a GIGTEK Media Center. Add the latest wireless technology and you don't even have the usual array of wires everywhere. A GIGTEK Media Center is a complete media solution. Plug into your TV or projector and you can watch and record digital television and radio, manage and play all your audio CDs and MP3 files, sort and view your digital photos, video conference with friends and colleagues, burn CDs and DVDs, play the latest PC games, surf the internet, make and answer emails, all from the convenience of your living room. A GIGTEK Media Center, complete media computing in one box, one stop, full stop.

Design

- Looks more like hi-fi than a PC
- Choose Silver or Black Case
- Family friendly menu system
- Near silent
- Twin Freeview™ Digital Tuners
- Wireless peripherals
- High performance components
- Complete, no costly extras

Function

- Watch Digital Television
- Pause Live TV
- Record Television
- Play DVDs in Surround Sound
- Audio Jukebox
- Record DVDs and CDs
- View Digital Photos
- Video Conference

Complete

A GIGTEK Media Center comes complete with all you need for a complete media computing experience. As well as the actual PC you get a wireless keyboard, mouse and a remote control. Digital connection to your surround sound amplifier and your television or projector ensures quality sound and video. A complete suite of all the software needed to make the most of your Media Center is also included.

Performance

To meet your performance needs each GIGTEK Media Center incorporates the very latest technology. Intel Pentium 4 Processors, fluid bearing hard disks, fast DVD Re-Writers, quality video output and two digital tv tuners mated to wireless peripherals achieve the combined goals of performance, convenience and silence.

MCE Classic Specification

Home Cinema Case (Black/Silver Fascia)
Intel Pentium 4 2.8GHz CPU
512Mb RAM
160 Gb Hard Disk
